Information About the Service

Inmarsat GSPS plans utilise the Inmarsat geostationary orbit satellite constellation, in conjunction with compatible Inmarsat GSPS hardware. The Inmarsat GSPS plans can be used at any location within the Inmarsat coverage area.

More information is available here: <https://theastgroup.com/au/services/networks/inmarsat>

Mandatory Goods

A compatible Inmarsat GSPS device will be required to use this service as well as an Inmarsat GSPS Isatphone SIM card provided by AST Australia. You may use your own device or purchase one outright from AST Australia.

Information About Pricing

Included Value: Can be used for calls to standard national, mobile and international numbers, voicemail and any Inmarsat BGAN, FBB, SBB or GSPS device.

Early Termination Fee: Calculated as the number of months remaining on the contract multiplied by the monthly fee.

Plan Changes: Changes are available at any time but will attract the applicable early termination fee.
